Herald fascination,  
Genesis of fear  
Born into servitude,  
Weep virgin tears

Immolate humanity  
To kill time  
... while on the path to death  
Disciplined divine

Bury your faith,  
In the groin of god  
Amen & out

Butchering pure instinct,  
Abstinent servitude  
One god one master,  
You're born to lose

Drink the blood, eat the flesh,  
Suckle on his waste  
Buried faith, groin of god  
He's filth, you're prey to taste

Amen & out
