Herald fascination,

Genesis of fear

Born into servitude,

Weep virgin tears

Immolate humanity

To kill time

... while on the path to death

Disciplined divine

Bury your faith,

In the groin of god

Amen & out

Butchering pure instinct,

Abstinent servitude

One god one master,

You're born to lose

Drink the blood, eat the flesh,

Suckle on his waste

Buried faith, groin of god

He's filth, you're prey to taste

Amen & out
