

Downlord "Loathe. Scorn. Detest."

Sudden impulse, neural glitch

The urge to strike out,

Cause life's a bitch

Beyond contempt

Raised by you alone

Demanding vindication

Your not hard to loathe

Acidic resentment

No time to mourn

My raped incisors

Drip venom and scorn

Final judgement

On you and your kind

Revealing motives

A sight to the blind

Aggressive tactics

So grotesque

Wretched inner circle

I detest

Loath scorn detest
