

## Downlord "Random Damnation"

Decreated  
The phase deleted  
A chapter ends  
Commence to the next stage

Core of existence  
A dark persistence  
In solitude to fester  
Greys unrest  
Garish spectres rise  
Rapid machination  
Chaos  
Random damnation

Reality in art  
Or persecution fear  
Out there lies the truth in lies  
Intervention nears

Vacant minds, in neglect  
Derelict, untold regret  
Through their teeth they're lying  
Are our waning spirits dying?

Stranger than fiction  
A ritual invoked  
Covert and ignorant  
On falsehoods even fort would choke

Desecration  
Self-mutilation  
Our alienation  
Random damnation
