Let them all sleep sound tonight
Count each breath until they float into their
subconscious mind
Don't wake them up
Don't make a sound
Let them be how they were found
And let them slumber now

Believe when we say
That you can repay

The motivation it takes to see
How it works for you and me
Can make or break the fall
Statistics have shown
If we beat on a different drum
We can finally lead

Believe when we say
That you can repay
Your debts to your leader
By taking away what's yours

Don't be so down tonight
Please don't give up the fight
Don't let your guard down
Don't let your guard down tonight
Please don't give up the fight

Come on
Come on
Let's go now
Don't waste it for what it's worth
Stand up against your fears now
Live life just one more time

Come on
Come on
Let's go now
Don't waste it for what it's worth
Stand up against your fears now
Live life just one more time

Come on
Come on
Let's go now
Don't waste it for what it's worth
Stand up against your fears now
Live life just one more time

Come on
Come on
Let's go now
Don't waste it for what it's worth
Stand up against your fears now
Live life just one more time

Don't be so down tonight
Please don't give up the fight
Don't let your guard down
Don't let your guard down tonight
Please don't give up the fight
Don't let your guard down
Don't let your guard down tonight
Don't let your guard down
Don't let your guard down tonight
Don't let your guard down
Don't let your guard down tonight
Don't let your guard down
Don't let your guard down tonight
