I believe  
We can leave  
We can leave if we wanna

Take a chance  
Its a choice  
Feel the heat if you wanna

Good night Lord, be safe and sound  
We can only see the dark from here

Like a match  
Flame can dim  
Our light of life can't be taken  
Our eyes are blind  
The page was left  
The words were gone, left mistaken

Be the one that you wanna be  
Live the life that you want to  
Black and whites not the way to be  
Keep the core

(Chorus)  
Good night lord, be safe and sound  
We can only see the dark from here (x2)

Lived short was the life  
A life that burns bright  
Brighter than the sun will shine  
If we can find a way  
To keep you in our hearts each day  
We would burn and cry at you...

Someone did away with my life support (x2)  
Someone did away with my life support (someone did  
away) (x3)  
Someone did away (x3)  
Someone did away with my life support  
Someone did away (x2)  
Someone did away with my life support

Lived short was the life  
A life that burns bright  
Brighter than the sun will shine  
If we can find a way  
To keep you in our hearts each day  
We would burn and cry at you
