Can someone let me know
Why it's a problem
To shoot for the stars
And nothing else

Can't bring us down you only make us better
Make us better

We
We know we're here to stay
On top of the mountain we have climbed
There is no way that it's only up from here

We speak only what's real
To all the ones who said we've lost our edge
Hats off to you
Well hats off to you
You've fueled the fire it's burning harder
It's burning harder

Can't bring us down you only make us better
Make us better

We
We know we're here to stay
On top of the mountain we have climbed
There is no way that it's only up from here
Save
Save your words for now
It's just so meaningless to us
It's OK we can only go up from here

It's up from here
It's up from here
It's up from here

Can't bring us down you only make us better
Make us better

We
We know we're here to stay
On top of the mountain we have climbed

There is no way that it's only up from here
Save
Save your words for now
It's just so meaningless to us
It's OK we can only go up from here
