We beat the air now and forever  
Forever  
Rising up until we see the light  
Feeling the ember's glow all night  
Watch the smoke rise into the sky  
See the ashes dance all night  
Yeah

Let us burn together  
Let us burn together

We beat the air now and forever  
Forever  
We beat the air now and forever  
(Rising up until we see the light  
Feeling the ember's glow all night  
Watch the smoke rise into the sky  
See the ashes dance all night  
Yeah)

Take in what's yours and fly away  
There's no reason to delay  
So take in what's yours and fly away  
There's no reason to delay

Let us burn together  
Let us burn together  
We beat the air now and forever  
We beat the air now and forever  
Forever  
So take in what is yours and fly away
