Day and night we try to keep the beat moving on and
on
Moving on and on
We leave the scene not knowing what we have to do
Surviving on our own

Leave it to us
To find our way
Through the darkness
Move out of our way
'Cause here we come
Try and stop us

In time
We'll sing this song for you
For you
To everyone that I've ever loved
We'll make it home for you
For you

On our way home
On our way home
On our

Each day and night we try to keep inside what's beating
us
But all we do is keep the things inside from taking us

In time
We'll sing this song for you
For you
To everyone that I've ever loved
We'll make it home for you
For you
'Cause here we come
