A death curse given from birth
shes a demon with an angel's smile
bloodlust; she's the goddess of rust
with the star of satan glowing in her eye

shakes her hips and her black robes fall
brings a chill to the air
dark priestess finds her pleasure in pain
in any hell you will find her there

but there's one thing she can't cover up

mark of the beast
mark of the beast
mark of the beast
mark of the beast

black lips; fingertips
she's the goddess of seduction and fear
pitch dark with the eyes of a shark
she's a lizard in a woman's skin

virgins hang from her bathroom wall
and she swims in their blood
and if she could she would kill you all
and that still wouldn't be enough

but there's one thing she can't cover up

mark of the beast
mark of the beast
mark of the beast
mark of the beast

she is damnation
dark rebel angel
and she burns inside my mind

but there's one thing she can't hide

mark of the beast

mark of the beast
mark of the beast
mark of the beast

mark of the beast (she can't hide it)
mark of the beast (she can't hide it)
mark of the beast (she can't hide it)
mark of the beast (she can't hide)

the mark of the beast
