Soul Shaker, you've got a hold on me
Turn me on, don't turn your heat up now
Day dreamer, everything at my feet
Dream maker now, your love is everywhere

Shake it up, you really do it to me
Shake it up, you've got me in a swing
Shake it up like birds of a feather
Shake it up where my words don't really matter

Touch me baby, you're an electric vibe
So beautiful now let me stand in your light
Shake me up got that kind of feel right
Caress me baby, give me some of that feel right

Shake it up, you really do it to me
Shake it up, you've got me in a swing
Shake it up like birds of a feather
Shake it up where my words don't really matter

Shake it up, shake it up
Shake it up, shake it up, no, no
Shake it up
