Pretty thing on her feet
She's gonna leave them sorry
She's a sweet and sour miss
Too hot to handle now
Spend all night
In a red light town

Looking for a green light
Green light girl
Looking for a green light
Green light girl

All the boys want you
Your glamour and despair
She smiles and rolls her eyes
In a rock and roll uprise
Touch if you want to
She's the girl of the year

Talking about a green light
Green light girl
Talking about a green light
Green light girl

Green light
Green light girl
Green light
Green light girl
I'm talking about a green light girl
Green light Green light
Green light girl
