If I were to die today
My Life would be more than Ok.
For the time I spent with you
Is like a dream come true.
If this was a last goodbye
No more tears to dry.
I would say it one more time
It's been more than fine.

How could have known?
How could have shown?

Say what you will
before it's too late.
Say what you will.
mmhmm.
Say what you will
Before it's too late.
Say what you will.
mmhmm

If you were to walk away
Know you could stay.
Think of all the times we've had.
All the good, and the bad.

How could have know?
How could have shown?

Say what you will
before it's too late.
Say what you will.
mmhmm.
Say what you will
Before it's too late.
Say what you will.
mmhmm

All the time that I was holding back
Just trying to protect myself.
I want you to know I loved you, more than that.

Say what you will
before it's too late.
Say what you will.
mmhmm.
Say what you will
Before it's too late.
Say what you will.
mmhmm

Say what you will
before it's too late.
Say what you will.
mmhmm.
Say what you will
Before it's too late.(Say what you will)
Say what you will.(Say what you will)
mmhmm
mmmmm

If I were to die today
My life would be more than ok.
