A king would trade his finest crown For a love, love like this And warriors have laid their weapons down For a love, love like this

Hearts will break a thousand times For a love, love like this And arms will wait a thousand nights For a love, love like this

Love may come and love may go But here inside your arms I know That only you will ever show me Love like this

You and I have finally found Love, love like this A place to lay our burdens down In a love, love like this

Hearts can speak without a sound In a love, love like this What makes the world keep turnin' 'round Is it love, love like this

Love may come and love may go But here inside your arms I know That only you will ever show me Love like this, ooh yeah

Love. love like this

The moon has never shown before On a love, love like this And I have never wanted more Than a love, a love like this Love, a love like this, a love, a love like this
