[Knightowl]

Now what you gonna do fool
What the fuck you got to say
What about the other day
When head banging the fucking bitches
Fucked up with the bird, but sure
Now you heard, what happened to your homies
Was only the beginning, fool still undefeated
You the one got delete, is time to nap
It was time for you to nap
You talk a lot of shit, heard about you got strap
So I couldn't take a change, with no hesitation
I shot you on the dome, revenge the motivation
But the mission is not complete, until you crew is delete
All yo got to go, don't fuck with me no more
You see the type of shit, that it happened if you do
I'm crazy motherfucker what you gonna do
Friends I never had, hand used to battle
If you fuck with Knightowl, you best said good bye now.

(Chorus: repeat 3X)

what you gonna do
what you gonna do
what you gonna do. When I can fo you and you crew

this is be the blue rag homes
and I mine keep walking politicos domes
they got you fucking screaming
you stared me, when you fucked stared me
to carry little further, commit murder,
I never thought, I was going to see the day
That I was wrong, friends and even family
Will try to burn, best keep learned
If you might get hurt. Don't fuck whit this loco
I explain in the voco, once uptimes I knew this
little fool name nacho
He run name sedomia, he have set name lo mas
So who is believe, When all became a hunted
to relive my fucking strap
I got it kick and keep planning
Fire all the good shit, doing bad shit

Because I don't give a damn fool. I heard you got a
plane
To take me out, and do me, but you never catch me to
me
If you getting more, if fuck around with sorrow,

[Knightowl]

don't provoke me or I send a picture of the darkness
you acting like bitch, but put you be homeless
the knightowl be the one victories, and another world
is this days notorious, catch you a movie get off my
face

you isn't my homie , I'm hanging my nut low fool
you don't know me, so what the fuck you got to said
you have no sense, so run up this do you want me to
commence

the ramble that I give created wiping

With me you have lost the fight so I'm the one that's
swiping

I break some of this you can not fuck with the done

You can't be stupid like a bow the dopes then all

I got the all like bitches

You be talking lot of shit, that is the reason you got hit

So said goodbye mama close the casket in the drama

I leave all the fucking fools instead of drama

(Chorus)

Knightowl, stick stone, I break my bone

But the gun that I carry was slafio

And it will put you in the land of the lost

You, if you double cross me you gonna get Sali

And there is nothing you can do

cause you a bitch and so your crew

So what I'm my said to all fucking G stop trying
