"Black Light Revolution"

I cannot see an end,
The cycle's neverending now.
Just like a pilotflame,
'Cause all the worst is yet to come.

... and I can see it clear.
... it's all your hate, I fear.
... you haven't reached the light.

Just like a nuclear war,
The blacklight taken it's toll.
Just like a silent freefall,
The revolution will come.

I hope you sleep at night,
Your habit's growing from now on,
As far as I can see,
You'll never leave the throne alone.

... now I can see it clear.
... it's all your hate, I fear.
... you'll never reach the light.

Just like a nuclear war,
The blacklight taken it's toll.
Just like a silent freefall,
The revolution will come.

Your life get's shorter by the hour...
I spread my wings on which I've flown...
Your life was hanging by a thread...
And then you blew it on your own...
