"The Exit"

It's a fact,
It is written down all over you and them...
And how long,
Could you wait it out until they're back again...
Be afraid,
Don't let you guard down now it should've stayed...
Like you know,
You'll break down now just like you've done before...

This time I'll face it heading on...
And I will never let it go...

Maybe so,
You'll drop everything and run like you've never
known...
All along,
You never knew a single goddamn thing...
You'll find out,
It's to late for now you'll find it all out soon...

It is true,
There are times when things just never makes any
sense...

This time I'll face it heading on...
And I will never let it go...
This time I'll face it heading on...
And I'm not scared of anyone...

You slow it up,
It's boring...
It won't be long,
It's over...
What made you follow us despite...
You get the hell,
Out of here...
Can't say I blame you,
For it...
You'll know that I'm the chosen one...
