As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined  
As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined

I flow like CD's in the deck  
Moosh fools in the face that lack respect  
Protect ya arm, pitch from the funk  
I deodirise the musty, ya rhymes are crusty, you can't  
bust G

So leave me alone I'm in the zone  
Walkin' the streets on my own, nigga get blown  
Some niggas say that nigga Where is gone  
But I'm low in the cut and gotta microphone  
Are you gone bust or play bones?

You motherfuckin' clone, get off that nigga's style and  
get'cha own  
It's Miscellanea and it's on again  
For the niggas that slept, they shoulda stayed in step  
And kept ya big fuckin' mouth shut

As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined  
As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined

I woke up with a stomach ache, headache, back ache  
Advil, Tylenol, Peptol, slept so long realized my world is  
wrong  
My world is gone like disco, blowin' up Cisco in my  
Cammo  
Standin' in back of me was my soul

Thinking of the easiest way to get a bank roll  
Knowledge is urban-able, exhaust manifold  
A tar can of hos to lubricate my system quick  
Shaky bitches off the dick

'Cos she got a vice grip on the flow from my lips  
I'm slow but equipped with the proper tools

Show me the one talkin' shit so I can drop a fool  
I'm out to glow a nigga roll if he think he Mr Cream

Come back on the scene and smoke a Phillie, G  
I really dream of gettin' mine now let me tell you what's  
silly  
Me, buckin' with my team is murder one  
I heard a gun bustin' shots, down the block

I guess a nigga gettin' what he got  
Shit is heavy like a medicine ball and broke niggas to  
smoke niggas  
I'll fuck one for y'all, they made ya last phone call  
To a trick that didn't even care

'Cos she was gettin fucked somewhere, you're stuck in  
there  
Now you wanna bust, nigga, now you wanna kill, nigga  
Nigga how ya feel? You can't try to be real  
Shit is for real

As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined  
As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined

As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined  
As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined

I'm cooler than most, but I got the shorter temper  
And I'm cooler than foes that don't know how it goes  
Let's take it back to the first side  
When you was a new jack and jockin' my new track

But you was wrong, didn't know about the big long  
Head-strong, nicknamed Dav from off the school yard  
With a teenage group I'm turnin' loots to tracks  
Me and my niggas like

You wanna know what the hos used to do  
When me and my crew came bustin' through  
All sorts of blushin's brew  
Underground till my brown eyed balls turned blue

This is for the bitches and niggas that wanna front  
I smoke on, I broke on till I spoke on  
Miscellanea packin' shows like Farrakhan  
Where is on another level with two niggas that's on the  
same plateau

Now that's three times your tightest flow  
And three times ya tightest track  
Three times your fattest sack  
Three times is clever

As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined  
As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined

As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined  
As the world keeps turning, chronic keeps burning  
Street sermon, these niggas are determined

Thou shalt rest in grief who lay buried in the belt  
Barely included work, leaves bodies scarred and hurt  
To art in hell, where the next man dwells  
The place with stankin' pussy and crack rock dwells
