[Dr Dre]

My life is like a highlight reel  
Some might consider this my twilight but depending  
how I might feel  
I might continue on with my career for 5 light years  
Critics can fly kites here?  
Welcome to my nightmare  
Pressures on, blood pressure racing  
I calculate my next step, pacin'  
Don't know if I'll meet expectations  
All I know is the World better get set  
Dre's in effect  
Been in it since you had cassette decks taping  
I'mâ€¦

[Eminem - Hook]

Into the wee hours all night  
And we dont stop until the sunlight  
We just keep going cuz the die hard won't go down  
without a fight  
â€¦Into the wee hours all night  
And we dont stop until the sunlight  
We just keep going cuz the die hard won't go down  
without a fight

[Dr Dre]

It's on, blood pressure racing  
I calculate my next step which is to accept my  
expectations  
It's sorta too high to meet, my reputations in jep'  
Yep, face it, the fans they've been upset yet patient, I  
love 'em for that
