Companion nor a destination
Courage beyond imagination
I am alone in the world
I am alone just alone-2
I roam like clouds my vision goes far beyond horizon
My soul is trapped in the sea that would never see the
sun
that would never see the sun
Companion nor a destination
Courage beyond imagination
I am alone in the world
I am alone just alone-2
I laughed away all sorrows my eyes never wet with tear-
2
I kept sailing with every one my sad tale got none to
hear
sad tale got none to hear
Companion nor a destination
Courage beyond imagination
I am alone in the world
I am alone just alone-2
Deaf and dumb world won't get why I love solitude
One that never got hurt would never guess my ache so
huge
never guess my ache so huge
Companion nor a destination
Courage beyond imagination
I am alone in the world
I am alone just alone-2
