I swear in the name of dead flowers
[I swear in the name of dead flowers
I won't take birth on this land on this land]-2
If at all God resends me-2
I w'll get astray in some sand
I won't take birth on this land on this land
[I shut my lips held all the tears
Hid all wounds of my heart]-2
People snatched my right to live
Tell me where I was at fault
With all my troubles stuck with me
I would depart to the heaven's land
I won't take birth on this land on this land
[With all the optimism at night
The day makes things out of sight]-2
This land looks doom of shining
Dumping ground of the bright
None would bother to console me
No one shall hear my song and band
I won't take birth on this land on this land
[Before the people kill my feelings
I w'll extinguish all my hopes]-2
Saying bye to those people
I shall quit and wear the ropes
This land is an abode of looters
I will go to my own with a bang
I won't take birth on this land on this land
[I swear in the name of dead flowers
I won't take birth on this land on this land]-2
