Without you I have a horrid time
all screams and no dreams
Destination was so close to me
but I was never a taker
My destiny is hell of things
and I was myself the maker
My sweetheart departed from me
pushing my passion in the dreams
Without you I have a horrid time
all screams and no dreams
We are the victim of situation
May you live happy and sound
I want you to forget me
Forget all my love around
Every flower lives till autumn
Leaves are then hard to glean
Without you I have a horrid time
all screams and no dreams
