[dr. octagon]

Your organic medical talk propels off my arms
The atom bomb final lionel richie not couth for this
battle

I battle sing-sing-sing like bing-bing-bing
Ricochet rapid grab it like a poppa
Watch you jam like a techer with old energy it's me
Lyrically bionically you're panicked b
You end up in the?, as I begat
Fertilizin your chrome, dome boils sore medicated
All flows rose and have a tweakin speakin
Puerto rican the powerful machine gun stun
Ba-bum-bum-bum-bum, ambulence, lights bright
Paramedics fetish your legs with eggs chicken hatch
Can't find too they dead ex, but the skin don't match

Chorus: dr. octagon (repeat 3x)

And you say, no awareness, swift as gold

[sir menelik]

Bio-production is greatly increased, magnetic fields Velocity of projectiles, electro-liquid experiments Theoretical observances and critical procedures, cool To seventy-seven kelvins, by submerging, steel cylinders

Secure capacitated it in the cyrogenic containin the crude samples

One millimeter, in diameter

Since the last explosion, december 3rd, 1992 Reinforce mixin copper nickel-beryllium oxide Concentric layers, proportional carbon density of the radius

Indisturbed existance if it does produce contradictory statements

Or quantum, wave functions, mechanic mind out of matter

This behaviour is accompanied by concious experience Remains astral, flexing as ever Ask copernicus about pushing limits

Chorus

[dr. octagon]

Like a twenty-five, pep-a-pep-pep, pellets beebee guns Will stun buns, kickin up dirt dust, must you see me Hittin like beepers, beep beep, vibrate Take swift shake swift with myth, while you smoke a spliff

Change strange and detour thought more
Minds with signs of minds on 8 by 10
Class when atomic lines
You keep a deep thought, bop bought
My planet court rehearsal is a must, lust my vital
Is a point to bust my inhabitants, past.. tense
Ever since presidents.. lyndon b.
Jerry, john, george and carter like optimus
Deep silk reflects on a starter
Megatron, rejuvenate!

Chorus 1.33x

[sir menelik]

Edge, dislocation specifically, opporunity to form And ultimately fail, under stress depends, on science immobile

Epoxy, or stock composites

New conductors maximum amp use much finer, filaments

Eighteen percent, of volume, minus . three six nine degrees

Celsius, a record for resistive, electromagnets
A hybrid design, seven-hundred thirty-thousand gauss
For all types of dc residents, absorbed in
Flowin through fifteen=thousand one-hundred watt,
lightbulbs

Tremendous heat is generated, driven by direct

But not oscillating, current

Extremely, powerful, fascinating

Engineering reflections, acoustic depth by analysis

Vulnerable, to legal talents

High exposure, requires, mental protection, replica

Artificial dynamic microsoft tech

Heavy black cables nova robot, demanding, battery power

Acids found, in josephalia, the master gene
