

Dr. Sin **"Fly Away"**

No, don't wanna
Bring you down
It's lurking all around
Nobody knows what lies
Behind the door
All that I've seen
I can't take it anymore

Living and dying, loving
And hating
(I will show you)
Look on the other side
Living and dying, loving
And hating (take my hand)
Just searching for a sign

Fly away, through
Another day
All the sorrows fade
Time will heal any
Pain you feel
Just fly away

No, no way we're
Looking back
Believe me that's a fact

Who do we blame when
Nothing is left to say
Always the same when no
One gives a damn
