Go see the dentist
A mi say open your mouth
A mi say open your mouth

Hello hello let's go and clean it up
Follow me
I will show you the way
Hello hello just come and take a seat
Please relax while I pump up the chair
She is my assistant, I am the boss
Together all a we
We will a fill a lot of hole
Open your mouth
Relax your body
Breathe normally

My advice come and see me once a year
Cause prevention is better than cure
It cause less money less therapy
Maybe we can avoid extracting and rootfillings
Can you bite and say hi
Can you bite and say hi hi
Brush and swing to the music directions
Open your mouth
Relax your body
Breathe normally

Once a year you can see the dentist
Cause prevention is better than cure
Relax yourself and breathe normally
He fills your hole so you can it feel very nice
He cleans your teeth and it smells very good
Although the sound might sound boring
Play the song go see the dentist
You can brush and swing to the music too
