I waste all sorts of time even though on the drop of a dime your voice a never-ending itch. I can't believe this and then the bitch. I wouldn't wish you even on my worst of enemies. Nice fucking life, he'll smell like swine for the rest of the night. So you can drown in your pool of smut. I don't believe this and then the slut. You're just a memory. Now, you've become the enemy. You're just a memory. Now you've become the enemy. Not worth my fucking seed. Now you've become the enemy. Now you're just a memory that lives with me. Now you're just a memory that lives with me. And you are nothing but a soul-sucking fuck toy put on this earth to please pieces of work like me down on your knees. That's all you're good for down on your knees. That's all you're good for, down on your knees. I wouldn't wish you even on my worst of enemies. Nice fucking life, he'll smell like swine for the rest of the night. So you can drown in your pool of smut. I don't believe this and then the slut. NICE FUCKING LIFE. Every time you spread your disease remember life is what you make it*
