Lets talk of lessons learned
What the fuck were you thinking man
You'll never learn
You're lack of conversation
Is public masturbation
Your lack of common sense
In an underage nation
We been running around with our heads off
Doing to you what we've done the night before
Grow to fuck grow the fuck up
We've been running around with our heads off
What the fuck were you trying to do
I think it's time that you grow older
Hurry up now hurry up now and bleed
If there's grass on the field then the games fucking
cancelled
What the fuck were you trying to pull
