(Away away from home)

This little girl is a country girl

Left her home and go to New York

Come to Ny with one dollar

Ask how many million people in a Ny

This little girl went to a session

In a session say she meet a little boy

This little girl is a country girl

(Away away from home)

Left her home and go a Ny

(Away away from home)

This little girl is a country girl

(From home away from home)

(From home away from home)

She went out with this little boy

This little boy couldn't show her anywhere

Life in big cities are difficult

She had to work all day to make a living

Colour people please stay where you are

Life in big cities are difficult

This little girl is a country girl

(Away away from home)

Left her home and go a Ny

(Away away from home)

This little girl is a country girl

(From home away from home)

(From home away from home)

This little girl is a country girl

Left her home and go to New York

Come to Ny with one dollar

Ask how many million people in a Ny

This little girl is a country girl

(Away away from home)

Left her home and go a Ny

(Away away from home)

This little girl is a country girl

(From home away from home)

(From home away from home)
