Dr. Alban - Help Afrika

=====

Yo! My name is Dr. Alban, the MD - Microphone Doctor
This song is dedicated to the people of Afrika
SweMix, gimme some drums!

Chorus:

Hello Afrika, tell me how youre doin?
Hello motherland, tell me how youre doin?
Hello Afrika, tell me how youre doin?
Hello motherland, tell me how youre doin?

Chorus

Hello Nigeria! Thats my motherland
Coming to Sweden now causin?hysteria
Takes a long time to travel the globe
So why be shy? Why be humble?
I just came straight of the jungle
You cant compete with me cause you know I got the
rhythm
I did it before and Ill do it again
So listen watcha say, yeah hear my point of view
Not everyone can do this, no, in fact only a few
Sophisticated, hardcreated, thats who I am
And you know Ive been waiting, so start pumping,
make some noise
The Mandika tribe, the Hausa tribe, the Fulani tribe, the
Gooya tribe
The Zulu tribe, mi no live in a house, mi live in a tree
Electricity can give you a shock
Mi no smoke no cig, mi no take no coke
All mi take is a glass of juice

Chorus

I have been mourning, I have been grieving
I have been crying, no more tears in my eyes
Theres a hottie hottie wind blowing south to north

Following on my head, drying all my plants
If theres a mercy in the clouds, who know the right is
never wrong?

Move the sadist off my back

And stop the fire burning in my home Afrika

Here comes the news from mighty Lord

Transqualation is about to come to Earth, right

Rapping is digging down river north to south

To let milk and honey flow side to side

My name is Alban, mi is a dentist, mi DJ here, mi DJ
there

Mi have a shop on Slojdgatan, Alphabet St. is da name

Mi live in no house, mi live in a flat

Electricity can give you a shock

Mi smoke no cig, mi take no coke

All mi takes is a glass of juice

Chorus

(Leila K:)

Mmm, jumping on the mic cause me a rockin?up
affection

When Im holdin?me a mic cause me awesome
effectious

What you say to me, me a fun a me warm

Spend some me a time on the tresittia dime

Dont you try to follow me you ought to realize

What me are what me a really want

Me not fryin? no, Im just coolin?

Come on now just set if off

Chorus
