"The Breeze"

Visit "[The Breeze](#)" on MotoLyrics.com

Are you moving much too fast?
And the good times that just don't last
If you're always on the go
Make an angel in the snow
And freeze

Do you feel like you're stuck in time?
Forever waiting on that line
If nothing ever moves
Put that needle to the groove
And sing

Is it a dream keeping you awake?
Is it the stillness that makes you shake?
If you need to know for sure
What's on the ocean's floor
You'll sink

Do you like things the way they seem?
Or are you looking behind the scenes?
Well, if you've gotta know
What it takes to make it sow
Just believe

Are there dark parts to your mind?
Hidden secrets left behind?
Where no one ever goes
But everybody knows
It's all right

Do you get dizzy on the ground?
It must be something going 'round
What blows us here today
It'll blow us all away,
The breeze
Ahh, will blow us all away
The breeze
Ahh, will blow us all away
The breeze
