Raise your eyes, wise up to the sky
Show your eyes in the grey image
Lookin' your life, in a new dimension
In your bed that situation!

Ethereal layers of psychic lights, shinging in the space!
Some figuers are moving in action, you remain dazzled
in contemplation
Spectral images in slow motion, Black stones in the
hollow ground

You don't dare, Beyond the fourth step
You risk to see, Your last world colored image
Land Of Mystery...
Now I'm free in the stratosphere
I never give a sign of fear
Colored smoke appears in the light

I see myself from the inside

Strange beings dressed in violet, mystic men living
over
Thinking through the sense of life, In the superior
layers of mind
See society of mysterious ideals, that grope, new ways
in the dark

You don't dare, Beyond the fourth step
You risk to see, Your last world colored image
Land Of Mystery... (Bridge)
Your eyes look inside, in a deep exile, they see far
from the vital gig
Out of time, in a secret life, You turn in the inner
pureness

Land Of Mystery... Land Of Mystery... Land Of Mystery...
