I tip my cap to the heavy heavy rain  
I wave hello when I see a snake go by  
I ain't a fighter, never been in a fight  
Can't get no answers from the other guy

So let's just clear the air  
I am over here, I'm over there

I am the youngest of a family of spiders  
I've got a web of my very own weaving  
I know where I belong and nothing's gonna beat it  
So I ain't going home just because I'm leaving

So let's just clear the air  
I am over here, I'm over there  
I am over here, I'm over there

Well the last time that I got lonely  
I didn't even know your name  
Once and again for the first time  
Yeah it's old but it ain't the same  
I remember everything you told me  
I remember you walking away  
I felt it on the moment that I met you  
And that felt like a place that I should stay

So let's just clear the air  
I am over here, I'm over there  
I am over here, I'm over there

We were around long before my birthday  
We'll be around to put flowers on my grave  
Me and you got a history of history  
Me and you, two continuous waves

So let us fill the air  
We are over here, we're over there  
We are over here, we're over there

So let us fill the air  
We are over here, we're over there

We are over here, we're over there
