(wilko johnson)

I'll get nervous when we meet
You look so young and sweet
You're taking time off school
Oh angel keep it cool

He worries so
Don't let your daddy know

I think the time is right
To take you out tonight
I can't call at your door
What if the neighbour saw

One thing just before I go
Don't let your daddy know

- break -

Before I knew your name
I loved you just the same
I love you still I do
It's a secret between us two

He might not dig it so
Don't let your daddy know

Don't let your daddy know
Don't let your daddy know
Don't let your daddy know
Don't let your daddy know

He might not dig it so
Don't let your daddy know
