Rainy days I don't seem to care  
People talk to me when I'm not there  
Vacant lot with a fancy view  
I need to talk but I can't find my shoes

It's on me  
Rains on me  
It's on me  
Rains on me  
It rains it rains

The rain drops fall like gypsy tears  
as if to wash away all these years  
And clouds hang low as if to stare  
at me not going anywhere  
It's on me

I hear there's jet planes high above the  
clouds  
and rainbows if you're not too proud  
and still the rain  
falls through the ocean breeze  
I have to laugh when it plays this joke on me

It's on me
