THIS...IS...MY...LIFE

[Chorus]

(Right and wrong)

Whatever which way they go (right and wrong)

Whatever which way they go (right and wrong)

Whatever which way they go (right and wrong)

Whatever which way they go (right and wrong)

[Verse 1]

Made me a leader before I was ready to lead

Took away my hunger, but didn't give me greed

Made me successful, when I just wanted to be heard

Give me the light, cause all I need is the word

Give me a life, that I'm responsible for

I'll give him what's right, cause I'm responsible for him

And into the night, I'm gonna be there with him

Facing a fight, I be right there with him

Ready for Heaven, cause I done been through the Hell

And since I was seven, I've had a story to tell

See God is great, and that's why I'm still livin'

He gave to me, so I'ma keep on givin'

The bravery of a man's mind is slavery

Is makin me the man I was made to be

I hate to see when cats know but don't spit it

Right is wrong, when it's on you gon get it

[Chorus]

[Verse 2]

I wake up frustrated dog, I'm hurtin' inside

Think about the brothers that put in, work and then died

A certain have tried, a certain have cried

When it didn't go right, you hit me like

You see things ain't always what they seem to be

And the reason I dream of thee is He's with me

And the reason I get through things so easily

Is by the grace of God cause he, see's the need to

guide me

Walk right beside me

Because he knows what's goin on inside me, he tried

me
Knew where my heart was at
Knew what I was thinkin
Knew when I was down and out, left there mistaken
Knew when to pick me up, cause it got too hard
Knew when I was gonna scream out "Please God!"
And you already knew that you would be there for me
That's why I bring you together to give you the glory

[Chorus]

[Verse 3]

Everyday of life is a new chapter
And it's already been foretold, so it's up to the soul to
capture
The essence of it all, the meek shall inherit the earth
Destined to ride with the call from birth
The true worth of a man, is not measured by what he
does for himself but
What he does for someone else
And if you help another, without concern for (?)
What you give, you shall receive tenfold
And I, put that on my soul
And, put that on my life
And, everything I own
And, everything I know
And, everything I show is what I was meant to do
Everything I told you is what I've been through
And everywhere I been, I was for a reason
Walk through the desert, ended up freezin
Start there, end up where?
And now they know...whatever which way they go

[Chorus]

Whatever which way they go (right and wrong)
Whatever which way they go (right and wrong)
Whatever which way they go (right and wrong)
Whatever which way they go (right and wrong)
Whatever which way they go (right and wrong)
Whatever which way they go (right and wrong)
Whatever which way they go (right and wrong)
Whatever which way they go
They know they gonna owe
They soul to the road they choose
It don't matter if you win or loose
You still gotta pay them dues
You still gotta pay them dues
You still gotta pay them dues
