(D. Locorriere/B. Francis)

Can't cuss I forgot about that, so I can't do that n' more.
There's always something. I can't do one thing, I can't
do this.

I can't even open my mouth, I can't _ can't talk.

What d'you mean I can?

The only time I d.....man you....you really get to me
man.....

...I swear you really do man sometime ain't gonna
screw.....

whole back inI drive it all the time.....you know....

....c'mon man you don't know anything about me.....

I get a whole different impression of you

...well who the heck wouldn't man?.....If somebody had
done like,

like you do all the time.....

Whenever I do wups

...oh it don't work so we gotta fix that now....

I get a whole different impression of you

...I would too man but won't you listen to me for one
time?...

Look I used to do things for you but....

Whenever I do wups

...let me do it Ok. Its my time.....I'm gonna do it..

'Cause if I'm emotional

I can't be emotional....Not now man c'mon....

Then I know you'll walk with me

And if I'm conversational

...who's conversational man?...just 'cause I wanna talk
to somebody

don't mean....

I know you'll talk to me

...I'll talk to you man.....

But when I'm straight

...I'm straight now can't you understand what I'm saying
man?....

Don't you know it can't wait

...I can't either ...C'mon now...

I get a whole different impression of you

...who wouldn't man I get a different impression of you
too man..

Whenever I, whenever I, whenever I do wups
...to say man, just say it.....and I'll go man...I'll get my
stet and
I'll go man.....I'll split...I want all of you to hear it
man....and I
want you to pay some attention to me for once in a
while man...you dig it
...all of you man...you too Ron.....every now and then
you don't listen
to me right?....but after a while you say "Oh I heard
something out the
corner of my ear....but I thought it was somebody else".
But it was really
Bill.....it was really Bill...you dig it...just like it was when I
said
hey ah that other tune...what is it.. that.. the bra. ... Sittin'
In The
Bar, right ...I told you that was gonna be a hit and it
was, and still is,
and people still record it man...ain't nobody.....every
time I say something
man I catch you do it....you do it...I....I know your brain
ol' man.....
I know how it work ...you hear. You say uh oh...two
month later I thought of that.....
