(D. Locorriere/E. Cate/E. Cate)

Some get lucky with the love they find
They fall right into the lasting kind
It looks so easy, how can it be
The same thing hasn't happened to me
I'm not complainin' cause I have my fun
But I'm still looking for that special one
Someone who feels just the way I do
And needs something they can hold onto

When we find it we're both gonna know
Just like a happy ending in a picture show
Always together in our happy ever after love

Some people like to spend their time changin' partners
Like they change their mind
I'm still waitin' for a heart that's true
I know that someone wants the same thing too

When we find it we're both gonna know
Just like a happy ending in a picture show
Always together in our happy ever after love

I tell myself that it won't be long
'Til I'll be singing a sweet love song
Someone's out there waiting for me
I know it was meant to be

When we find it we're both gonna know
Just like a happy ending in a picture show
Always together in our happy ever after love
