Before you go, I already miss you so  
Come here let me kiss you, change your mind  
I Love you  
Please don't leave me

If you try to walk away on them pretty legs  
I would saw them off and pick you up and walk us home  
Because I love you  
But I'll kill you if you leave me

Now if you ever think of lying in another man's bed  
I would break your neck and make you wish that you  
were dead  
Because I love you  
But I'll kill you if you leave me

Now I can't stand to see you looking at another man  
I would punch your lights out then you'll see and  
understand  
I love you  
But I'll kill you if you leave me

I love you  
I love you  
[Oh Please don't kill me]  
I love you  
[Please don't kill me]  
I love you  
[Please don't kill me].....
