(Unknown)

When you took me out of lonesome, and put the s in my
eyes

Oh you helped me see tomorrow, you gave me
strength to survive

And if love can ever take me far across that doubting
line

To where yesterday can't haunt me, it'll be yours and
mine

'Til now love has always left me lonesome

Love never treated me kind

But if love ever finds forever

It'll be yours and mine

Oh I know, yours and mine

Oh I know, yours and mine

Makin' love was makin' memories

We made a few in our time

And if we still feel love at sunup

It'll be yours and mine

'Til now love has always left me lonesome

Love never treated me kind

But if we still feel love at sunup

It'll be yours and mine

Oh and if it ever finds forever

It'll be yours and mine

Oh I know, yours and mine

Oh baby I know, yours and mine
