The world we know was built on skills, but that alone
don't count.

Without the sweat and toil of mine; it wouldn't be worth
a dime.

You got to live and give, share and care. Really put
some love in the air.

When your neighbor's down, try to pick him up. Nobody
can live in despair.

Everybody let's sing, sing, sing (Let freedom
ring)

(Everybody let's sing, sing, sing)

Let's all pitch in to do our thing, make a better world to
live in.

Everybody let's sing, sing, sing (Let freedom
ring)

(Everybody let's sing, sing, sing)

Let's all pitch in and do our thing, make a better world
to live in.

Society has no priority, we're all one part of a whole.

When people scream and shout, you hafta hear 'em
out. Everybody is a beautiful soul.

You gotta pull together, go hand in hand. You really got
to do your best.

Wouldn't it be a perfect sight to see: the whole world
filled with happiness.

Everybody let's sing, sing, sing (Let freedom
ring)

(Everybody let's sing, sing, sing)

Let's all pitch in to do our thing, make a better world to
live in.

Everybody let's sing, sing, sing (Let freedom
ring)

(Everybody let's sing, sing, sing)

Let's all pitch in to do our thing, make a better world to
live in.

Everybody let's sing, sing, sing

(Everybody let's sing, sing, sing)

Let's all join hands and do our thing, make a better
world to live in.
