### "Unless We Go"

Visit "[Unless We Go](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We built our walls like we learned  
Then they came crashing downward  
We saw the things that we burned  
And ran from ourselves like cowards

It can't be made right  
It can't be made right

All of the things that we earned,  
With bruises and scratches and blood  
Were tapping on our backs and we turned  
And fell facedown in the mud

It can't be made right  
It can't be made right  
I feel so small!

Maybe we have room to grow  
We'll never get there unless we go  
Maybe we're lost in complications  
Our hearts and our bodies, racing and racing

We made our messes  
We choked on our lessons never learned

Maybe we have room to grow  
We'll never get there unless we go  
Maybe we're lost in complications  
Our hearts and our bodies, racing and racing
