So you say all the way in one hour
Won't seem so real
If you stay I can play for an hour
My mind'll reel
It won't be long, tell me I'm wrong
Come to my place I'll hide you
It's not too late don't tell me to wait
It's just my fate it attracts you
So you see it'll be a bit harder
There's no treat
Talk to me and I'll talk to the father
When we meet
If I stay will you push it away
A move but I'm not running
See I do what has happened to you
For me a second coming
It won't be long, tell me I'm wrong
Come to my place I'll hide you
It's not too late don't tell me to wait
It's just my fate it attracts you
Roads getting dusty from my home
I will trust me leave it alone
How I, Now I, I am away
You try, You buy
The key to the shade
It won't be long, tell me I'm wrong
Come to my place I'll hide you
It's not too late don't tell me to wait
It's just my fate it attracts you
