From other worlds come the marching souls  
Endlessly walking the path to infinity  
Joining with them i see through eternity  
I see the weakened mortals from above

Leaving the plane of earth and time  
On a limitless voyage to nowhere  
A silent power overwhelms the horde  
Of nomadic souls who wander

Lost in a void of immeasurable dimensions  
I walk through the immortal gates of uncreation  
Legions of darkness  
Now control the portal time

Now to walk the shadowed plane  
Where subconscious souls forever remain  
Hordes of evil from the blackened sun  
Discover a new path to immortality
