I don't think you wanna hurt nobody
I just wanna live my life
Feel me?
Come on baby
(Elite)
Where we at baby
Let's get it C'mon

[Drag-On]:

How many niggas ever seen a shot gun shot
Look like somethin comin at you non-stop
James Brown make you "Say it loud"
Just walk through this block, air it out
Anybody can pump a lead off
Let me see you shoot a .50 caliber gone pop a head off
We can let it off
You see my movies you say who represent my dog and
I'm a edit off
So you niggas better move back
Somebody better duck their head
Cause your bloody minds bout to be in all black
Cause a nigga white tee bout to turn red
And I don't give a shit!
When I stand in front of the judge yeah I did it what
I'm in a cell by myself
Cause I don't wanna HURT NOBODY

[Chorus]:

I'm that hood
I'm them streets
I'm them lyrics and them beats
I'm that weed I'm that X
I'm that sex that you need
I'm that nigga with your wife
I'm that comma layin right
I'm that match that you light
When you ain't got no light
I'm your fireman

[Drag-On]:

Who the fuck say Drag couldn't come back

(He said it) Now where my gun at
Nigga won that
Cause I don't raise a lot of niggas and not I want my
sons back
I catch a nigga at a party
Matter fact I be up in his lobby
Lettin my man hold his shotty
Cause I don't wanna HURT NOBODY
Sometimes I gotta do what I gotta do
Pull out just shoot for I gotta shoot
And your nigga on the roof
My shoes and slip I hope he gotta parachute
I'm in the zone dawg
I'm by myself at my home dawg
Everybody just leave me the fuck alone
Cause I don't wanna HURT NOBODY

[Chorus]

[Dag-On]:

I wasn't all that
My head wasn't screwed on tight
That's why I pause every line
Cause I take time
For a boss to map out his crime
This idea with a snitch
Cut his tongue and mail it to his bitch
Cause when a nigga run his lips
It makes me wanna HURT SOMEBODY
But I ain't the nigga that'll
Come up with chitter chatter
Cause if ya'll come up with talkin already that a
Either you got it or you don't
Or you're real or you won't
Shut until you don't
You ring you better hide your thoughts
Now you on life support
Can't cry you might die driving
But instead got my nig pulling me outta here
Cause I don't wanna HURT NOBODY

[Chorus]

I'm your fireman
