Authors of pain, breeders of sorrow  
Driven by suffering  
Eyes filled with rage  
Echoes of madness

Curse thy name for eternity  
Standing defiant with fists to the sky  
Hope fails and dies  
In life as in death

Trampled and broken the weak will of man  
Existence is nothing... forgotten  
Peace is no more as chaos ensues  
The Cult of the Dragon

Black out the sky, light exists here no longer  
Feel the dragon's breath as we scorch the earth

Any hope of a future  
BURNT BEFORE YOUR EYES  
Nothingness prevails  
OUR REIGN IS SUPREME

Eliminate your weakness  
Proclaim our greatness  
Tormented and cast away  
Bleak is thy fate  
Showered in darkness for eternity  
Even your memory is gone
