Hear her calling, come to me
Thought of her won't let me be
Go to the valley, climb the hill
Whatever it takes darling, you know I will

Hey now darling
Heavy soul darling
Heavy soul darling
Heavy soul darling
Heavy soul darling

Hear her callin', hurry home
Been so long since I been gone
I won't get tired, won't go astray
I hear her callin', call my name

Hey now darling
Heavy soul darling
Heavy soul darling
Heavy soul darling
Heavy soul

Just my color, just my kind
Got a heavy soul next to mine
Heart's on fire, get no sleep
Drive all night, no relief

Yeah, now darling
Heavy soul darling
Heavy soul darling
Heavy soul darling
Heavy soul darling
Heavy soul
