Tell me where you're goin' or
What is going wrong
I felt you leavin' before
You'd even gone

And hold me now
Or never ever hold me again
No more talk
Can take me from this pain I'm in
Pain I'm in

See the moonlight shinin'
On your window pane
See it leave you
As faithful as it came

Please yourself so you
Don't have to be afraid
Make amends
Or carry on another way
Another way

Tell me what you were thinkin'
To treat somebody so
The care he took
The lengths to which he'd go

Coals are hot to walk across
Without your shoes
But in the end
Know that you got nothin' to lose
Nothin' to lose
