Lost Souls in Endless Time

Spend all our lives on what we believe in
Struggle day by day but never retrieving
Taking our chances and follow the footsteps
Ancestors will take us to this fight
At the time it was blistering snowing

Never really know about where we were going
Time is coming now to cross over
Here and now until the curtain lowers

Slaying all the evil down below
Onwards we ride now to what we know
Strong enough to stay and carry on forever
Brace your soul to fight whenever

Never know how far we travelled we will have our stand
Across the deepest oceans gold is in our hands
Good things will come for those who wait we can't deny
Still the battle raging and the fire burns inside

Take you with me, we will fly across the sea
To the land of the sun where our journeys begun
All fear is gone, we sail until the dawn
Deepest fears will burn inside your mind
For the souls lost in endless time

Searching never ending for the chaos ascending
You forgot the spirits all times pretending
Passing shades of darkness in the world around you
Finally insanity in death has found you.

On the edge of life trying to pull you under
Deep inside the storm there's a raging thunder
Sacrifice your innocence for persecution
As we now prepare for the revolution

Slaying all the evil down below
Onwards we ride now to what we know
Strong enough to stay and carry on forever

Brace your soul to fight whenever

In a time of fire we're searching blind inside the mind
Run away to hell's damnation one day we will find
Suddenly the skies are falling too late for us all
Crashing down on all creation as the towers fall

Take you with me, we will fly across the sea
To the land of the sun where our journeys begun
All fear is gone, we sail until the dawn
Deepest fears will burn inside your mind
For the souls lost in endless time
Solos: Vadim/Key Blast

Stand Before the worlds of freedom
Rise above them all
Ride towards the battle raging
Victory behold
Blackened Steel of death tonight
Our legions now descend
Far Beyond the gates of glory
Time to rise again

Bridge

Solos: Sam/Herman/Sam/Herman

Take you with me, we will fly across the sea
To the land of the sun where our journeys begun
All fear is gone, we sail until the dawn

Take you with me, we will fly across the sea
To the land of the sun where our journeys begun
All fear is gone, we sail until the dawn
Deepest fears will burn inside your mind

For the souls lost in endless time (x3)
