All before our time now,
we always lived freely.
We lived a very long life,
but armageddon is on the path to death.

Meteorites will rain down,
destroying our family and friends.
Fire raging down on our precious homes,
oh God please stop the armageddon.

Armageddon, Armageddon!
Please don't destroy us.
We want to live peacefully with our earth,
Armageddon, Armageddon Ending!

We will never live again,
not even be reborn.
We're all comitting suisicide baddly,
so that way we won't have to face the facts.

Facing earthquakes from hell,
the biggest volcanic eruptions.
Tsunami hurricanes and tornados,
flooding our precious o precious earth.

Oh, will this rampaging end ever stop,
already we are dieing from armageddon.
We are all killing others,
and then killing ourselves, because of armageddon.

Armageddon, Armageddon!
Will this raging fire ever stop.
Please oh God help our earth from death,
Armageddon, Armageddon Ending.

So it seems that we can't survive,
so goodbye now to you.
Armageddon, Armageddon Ending!
Armageddon, Tis time for the end of the world!
