Outside the battle ragin death upon us
No surrender unchained and free
Insanity will lead to blind destruction
Crush the evil, the foul disease

Our final destination reborn in darkness
Watching and waiting destroying with ease
The judgement day upon us as dawn is breaking
Mankind will fall to the spineless decieved

[CHORUS]

Fly through the storm, power of the steel
Striking with vegence, force them to kneel
Soldiers unite, force of the world
Fight till the end we will die by the sword

Fight on in foreign fields of mass destruction
Stand as one, no man left behind
Our final victory, tonight awaits us
Slain in darkness behind the lines

Raise the dead, ride beside of me
Fallen heroes, of a thousand moons
Blaze ahead the price that they now pay
On the march to their doom

[CHORUS]

Fight till the end we will die by the sword

Light the fires of freedom, on the shores of endless
seas
Wings of glory guide us, on the path to victory
Light the fires of freedom, on the shores of endless
seas
Wings of glory guide us, on the path to victory

SOLOS: SAM / HERMAN

Outside the battle raging death upon us
No surrender unchained and free
Insaniy will lead to blind destruction

Crush the evil, the foul disease

[CHORUS]
